

NEVADA OBSIDIAN SOURCES

LONG VALLEY

ALTERNATE NAMES: –.

LOCATION - COUNTY: Washoe.

ARCHAEOLOGICAL SIGNIFICANCE: Little is known of the archaeological significance of the Long Valley although limited XRF studies of regional artifacts suggest that the source is a relatively minor one. Artifacts from this source are usually found in Washoe and Humboldt counties (Nevada) and are occasionally identified at sites in northeastern California and southeastern Oregon.

ACKNOWLEDGMENTS: Penni Borghi.
